## **Product Data Sheet**

## PE anti-mouse CD122 (IL-2Rβ)

Catalog # / Size: 1216045 / 25 µg

1216050 / 100 µg

TM-B1 Clone:

Isotype: Rat IgG2b, ĸ

Rat T cell line expressing mouse CD122 Immunogen:

( IL-2Rβ)

Reactivity: Mouse

**Preparation:** The antibody was purified by affinity

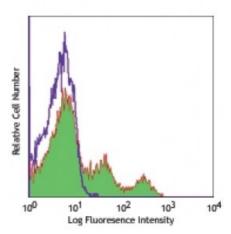

chromatography, and conjugated with PE under optimal conditions. The solution is free of unconjugated PE and

unconjugated antibody.

Formulation: Phosphate-buffered solution, pH 7.2,

containing 0.09% sodium azide.

Concentration: 0.2

C57BL/6 mouse splenocytes stained

with TM-β1 PE

## Applications:

**Applications:** Flow Cytometry

Recommended

**Usage:** 

Each lot of this antibody is quality control tested by immunofluorescent staining with flow cytometric analysis. For flow cytometric staining, the suggested use of

this reagent is  $\leq 0.25$  microg per  $10^6$  cells in 100 microL volume. It is

recommended that the reagent be titrated for optimal performance for each

application.

**Application** 

Additional reported applications (for the relevant formats) include:

Notes:

immunoprecipitation1, blocking of IL-2 binding1, and NK cell depletion2 in vivo. The LEAF™ purified antibody (Endotoxin <0.1 EU/microg, Azide-Free, 0.2 μm filtered) is recommended for blocking of IL-2 binding in vivo and in vitro (Cat. No.

123204).

**Description:** 

CD122 is a 70-75 kD IL-2 receptor β chain also known as IL-2Rβ, which is also shared by the IL-15 receptor. It is constitutively expressed by NK cells and at lower levels by T cells, B cells, monocytes, and macrophages. The IL-2R\$ chain can combine with either the common  $\gamma$  subunit ( $\gamma_c$ , CD132) alone or with the  $\gamma_c$ subunit and the IL-2R $\alpha$  subunit (CD25) to generate intermediate or high affinity IL-2 receptor complexes, respectively. CD122 expression levels can be upregulated by activation. The TM-β1 antibody does inhibit IL-2 binding to the IL-2 receptor. CD122 is expressed on murine, but not human, CD8+ Tregs involved in the maintenance of T cell homeostasis.
