Product Data Sheet

Alexa Fluor[®] 700 anti-human CD183 (CXCR3)

Catalog # / Size:	2368710 / 100 tests 2368705 / 25 tests
Clone:	G025H7
Isotype:	Mouse lgG1, к
Immunogen:	Human CXCR3 transfectants
Reactivity:	Human
Preparation:	The antibody was purified by affinity chromatography and conjugated with Alexa Fluor® 700 under optimal conditions.
Formulation:	Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide and 0.2% (w/v) BSA (origin USA).
Concentration:	Lot-specific

Human peripheral blood lymphocytes were stained with CD3 FITC and CD183 (clone G025H7) Alexa Fluor® 700 (top) or mouse IgG1, к Alexa Fluor® 700 isotype control (bottom).

Applications:

Applications:		5 10 ⁵	
Applications:	Flow Cytometry	courte	
Recommended Usage:	Each lot of this antibody is quality control tested by immunofluorescent staining with flow cytometric analysis. For flow cytometric staining, the suggested use of this reagent is 5 microL per million cells or 5 microL per 100 microL of whole blood. It is recommended that the reagent be titrated for optimal performance for each application.	Joppon 10 ⁴ 10 ³ 10 ² 0 10 ² 10 ³ 10 ⁴ 10 ⁴ 10 ⁵ CD3 FITC	
	* Alexa Fluor® 700 has a maximum emission of 719 nm when it is excited at 633 nm / 635 nm. Prior to using Alexa Fluor® 700 conjugate for flow cytometric analysis, please verify your flow cytometer's capability of exciting and detecting the fluorochrome.		
Description:	Human CXCR3, also known as GPR9, is a c CXCL10, and CXCL11. It is a 38 kD seven- to G-protein. CXCR3 is highly expressed b cells), dendritic cells, mast cells, alveolar airway epithelial cells. CXCR3 is important into inflamed tissue in various inflammato	bass transmembrane receptor coupled y T cells (Th1), natural killer cells (NK macrophages, eosinophils, and human for effector lymphocyte recruitment	

lymphocyte recruitment into inflamed tissue in various inflammatory and autoimmune diseases, such as chronically inflamed liver, Crohn's disease, rheumatoid arthritis, multiple sclerosis, and inflammatory skin diseases.
