## **Product Data Sheet**

## Alexa Fluor® 488 anti-human CD223 (LAG-3)

Catalog # / Size:	2446625 / 25 tests 2446630 / 100 tests
Clone:	11C3C65
Isotype:	Mouse IgG1, к
Immunogen:	Human LAG-3 transfected cells.
<b>Reactivity:</b>	Human
Preparation:	The antibody was purified by affinity chromatography and conjugated with Alexa Fluor® 488 under optimal conditions. The solution is free of unconjugated Alexa Fluor® 488.
Formulation:	Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide and 0.2% (w/v) BSA (origin USA).
<b>Concentration:</b>	Lot-specific

CD3/CD28/IL-2 stimulated (three days) peripheral blood mononuclear cells were stained with CD8 Alexa Fluor® 700 and CD223 (clone 11C3C65) Alexa Fluor® 488 (top) or mouse IgG1, κ Alexa Fluor® 488 isotype control (bottom).

105

## **Applications:**

Applications:	Flow Cytometry	e out
Recommended Usage:	Each lot of this antibody is quality control tested by immunofluorescent staining with flow cytometric analysis. For flow cytometric staining, the suggested use of this reagent is 5 $\mu$ l per million cells or 5 $\mu$ l per 100 $\mu$ l of whole blood. It is recommended that the reagent be titrated for optimal performance for each application.	CD8 Alexa Fluor @ 700
Application Notes:	The staining of clone 11C3C65 cannot be blocked by clone 7H2C65, which is another anti-human CD223 (LAG-3) antibody.	CD6 Alexa Fluor & 700

Description:	CD223, also known as LAG-3, is a 70 kD type I transmembrane glycoprotein that is involved in T-cell signaling. Similar to CD4, CD223 binds MHC class II, but with a higher affinity. CD223 negatively regulates T-cell activation. It is expressed by activated T-cells and natural killer cells (NKs), as well as regulatory T-cells. It is transiently expressed on the surface of activated T-cells in acute conditions but high expression is maintained under tolerizing conditions. CD223 deficiency results in reduced tumor growth. CD223 and PD-1 can act in synergy and reverse exhausted phenotypes, improve tumor rejection, and control viral load.
