## **Product Data Sheet**

## **APC anti-human CD99**

Catalog # / Size:	2456535 / 25 tests 2456540 / 100 tests		-			
Clone:	3B2/TA8					
Isotype:	Mouse IgG1, κ	nber				
Immunogen:	Human thymus	Al Nu	-		٨	
<b>Reactivity:</b>	Human	he Ce			Л	
Preparation:	The antibody was purified by affinity chromatography and conjugated with APC under optimal conditions. The solution is free of unconjugated APC and unconjugated antibody.	Relat	0	103	104	105
Formulation:	Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide and 0.2% (w/v) BSA (origin USA).	Log Fluorescence Intensity Human peripheral blood lymphocytes were stained with				
Concentration:	Lot-specific	CD his iso	CD99 APC (clone 3B2/TA8, filled histogram) or mouse IgG1, κ APC isotype control (open histogram).			

## **Applications:**

Applications:Flow CytometryRecommended<br/>Usage:Each lot of this antibody is quality control tested by immunofluorescent staining<br/>with flow cytometric analysis. For flow cytometric staining, the suggested use of<br/>this reagent is 5 microL per million cells or 5 microL per 100 microL of whole<br/>blood. It is recommended that the reagent be titrated for optimal performance for<br/>each application.

**Description:** CD99 is a type I single chain transmembrane protein devoid of N-linked glycosylation sites encoded by the pseudoautosomal gene MIC2. CD99 has an apparent molecular weight of 32 kD and is widely expressed on a variety of tissues. CD99 is highly expressed on thymocytes, T cells, and T cell leukemias and lymphomas. However, it is absent on some B cell lines, fetal B cells, eosinophils, granulocytes and the NK-cell line YT. CD99 is involved in spontaneous rosette formation with erythrocytes and may also be involved in other T-cell and hematopoietic cell adhesion pathways. CD99 has been reported to activate a caspase-independent death pathway in T cells under some conditions. CD99 interacts with a number of proteins including ferritin heavy chain 1, karyopherin  $\beta$  1, TRIP13, cyclophilin A, annexin II, and ubiquitinconjugating enzyme E2H.
