## **Product Data Sheet**

## PE anti-human CD86

Catalog # / Size:	2471025 / 25 tests 2471030 / 100 tests	
Clone:	BU63	
Isotype:	Mouse IgG1, к	
Immunogen:	ARH 77 (B lymphoblastoid cell line).	
<b>Reactivity:</b>	Human	
Preparation:	The antibody was purified by affinity chromatography and conjugated with PE under optimal conditions. The solution is free of unconjugated PE and unconjugated antibody.	
Formulation:	Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide and 0.2% (w/v) BSA (origin USA).	
Workshop Number:	HCDM listed	
<b>Concentration:</b>	Lot-specific	

Human peripheral blood monocytes stained with CD14 APC/Cy7 and human CD86 (clone BU63, top) PE or Mouse IgG1,  $\kappa$  PE isotype control (bottom).

Inol

## **Applications:**

<b>.</b>			
Applications:	Flow Cytometry		
Recommended Usage:	Each lot of this antibody is quality control tested by immunofluorescent staining with flow cytometric analysis. For flow cytometric staining, the suggested use of this reagent is 5 $\mu$ l per million cells or 5 $\mu$ l per 100 $\mu$ l of whole blood. It is recommended that the reagent be titrated for optimal performance for each application.	NDD 10 <sup>4</sup> 10 <sup>3</sup> 0 0 0 0 0 0 0 0 0 0 0 0 0	
Application Notes:	BU63 detects different epitope of CD86 compared to our current IT2.2 clone. LEAF format of BU63 can be utilized for	connercy	
	blocking purposes.

Description:	CD86 is an 80 kD immunoglobulin superfamily member also known as B7-2, B70, and Ly-58. CD86 is expressed on activated B and T cells, monocytes/macrophages, dendritic cells, and astrocytes. CD86, along with CD80, is the ligand of CD28 and CD152 (CTLA-4). CD86 is expressed earlier in the immune response than CD80. CD86 has also been shown to be involved in immunoglobulin class-switching and triggering of NK cell-mediated cytotoxicity. CD86 binds to CD28 to transduce costimulatory signals for T cell activation, proliferation, and cytokine production. CD86 can bind to CD152 as well, also known as CTLA-4, to deliver an inhibitory signal to T cells.
