

Purified Rat IgG2b, λ Isotype Ctrl

Catalog # / Size: 2619005 / 50 μ g

Clone: G013B8

Isotype: Rat IgG2b, λ

Preparation: The antibody was purified by affinity chromatography.

Formulation: Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide

Concentration: 0.5 mg/mL

Applications:

Applications: Flow Cytometry

Recommended Usage: Each lot of this antibody is quality control tested by immunofluorescent staining with flow cytometric analysis as negative control. Use at concentrations comparable to those of the specific antibody of interest.

Description: The isotype of this antibody is rat IgG2b, λ . This antibody was chosen as an isotype control after screening on a variety of resting, activated, live, and fixed mouse, rat and human tissues.
