

Flow Cytometry Antibody Diluent Buffer

Catalog # / Size: 2727505 / 5 ml

Isotype:

Concentration: Lot-specific

Applications:

Applications: Flow Cytometry

Recommended Usage: The Flow Cytometry Antibody Diluent is a ready to use PBS based buffer containing sodium azide (NaN₃) and Bovine Serum Albumin (BSA).

This product is subject to proprietary rights of Sirigen Inc. and is made and sold under license from Sirigen Inc. The purchase of this product conveys to the buyer a non-transferable right to use the purchased product for research purposes only. This product may not be resold or incorporated in any manner into another product for resale. Any use for therapeutics or diagnostics is strictly prohibited. This product is covered by U.S. Patent(s), pending patent applications and foreign equivalents.

Description: This buffer is used to dilute antibodies intended to be used in flow cytometry. The components are compatible with our Cell Staining Buffer and it is useful to prepare concentrated antibodies or preparing staining cocktails.
